<i>S</i>	\$17.00	\$29.00
<i>*O</i>	\$22.00	\$40.00

*for compounds which **do not** contain Silicon, Boron or high concentrations of

Analytical Notes

FIVE (5) MG transferrable sample required per analysis.

DEUTERIUM is analyzed by our instruments as if it was hydrogen and is included in the hydrogen analysis. **Example:** $C_{10}H_{10}D_2O$ $MW = 150.212$; theoretical % hydrogen plus deuterium (where deuterium is calculated as hydrogen) = 8.05%. Please note that this value is not the same as the sum of the percent hydrogen and the percent deuterium.

Procedural Notes

ANALYTICAL REPORTS will be returned either by email, fax or by US mail, as per client request, at no charge. If both email and fax are requested, there will be a \$5.00 charge per group of samples. If both fax and mail service are requested, there will be a \$1.00 per sample charge to a maximum of \$5.00 per group of samples. **When requesting fax service, please be sure to provide us with your fax number.**

TELEPHONE SERVICE to report analytical results is available upon request. There is a \$5.00 charge for this service.

EMAIL SERVICE to report analytical results is available upon request. There is no charge for this service. Please be sure to include your email address on the submission form.

RUSH SERVICE is provided as follows: analyses will be completed and results available by 5:00 PM eastern time on the day the sample is received. There is a **\$9.00 per sample charge** for this service. Samples received after 11:00 AM will be delayed accordingly. Rush orders numbering ten or more samples per customer may be delayed until 3:00 PM the following business day.

PLEASE USE THE FOLLOWING ADDRESSES in order to facilitate prompt delivery of your samples for analysis:

for Express Delivery Services, please use our street address:

ATLANTIC MICROLAB, INC.
6180 Atlantic Blvd., #M
Norcross, GA 30071

for US Mail Delivery, please use our P.O. Box address:

ATLANTIC MICROLAB, INC.
P.O. Box 2288
