Physical Chemistry I – Problem Set #1
(Due: September 25, 1998; at midnight)

Send e-mail to the professor at edu@theor.chemistry.gatech.edu with the subject line: 3411:Register. Make sure that either the return address or the body of your message includes your full name.

Your e-mail message should include the following information:

1. Your SID#, Major and year of study. (In all future problem sets, you should include both of these items in the upper right corner of the first page. This duplication is required in order to ensure that you receive proper credit for your work.)

2. After having successfully registered onto the mailing list, you will receive a welcome message from the listprocessor. Please include the first 10 lines of the welcome message. (Note that the listprocessor will actually send you two messages; you must respond to the first one in order to be successfully registered onto the mailing list.)

3. A brief message of why you are taking this course and what you hope to get out of it.

NOTE: 10 points will be awarded for successful completion of this assignment. If the message is not received by Friday night for full credit, one point will be deducted for each business day that it is late. (For example, up to 9 points would be awarded if the assignment is successfully submitted by Monday, September 28, at midnight.)
